**Program Level Outcomes**

This section illustrates the total number of clients who reported achieving specified outcomes, and the corresponding percentage of achievement for all clients working on that outcome.

### Senior Crisis Intervention
- **Clients seeking and receiving critical senior services**: 759
- **Clients who report the program helped them get the services they needed to move from crisis to stabilization**: 793

### Senior Service Network Navigation
- **Clients seeking and receiving protective senior services**: 1280
- **Clients who report the program helped them get the services they needed to maintain their independence**: 1125

### Senior Social Integration
- **People participating in program activities**: 991
- **People who report participation in program activities helped maintain their social integration**: 895

### TRENDS FROM REPORTING
- Transportation remains a persistent barrier for service delivery and access.
- Lack of resources for staffing means wait lists and longer response times.
- Older adults are reluctant to provide information about income level, which impacts data collection.

**Washtenaw Coordinated Funders**

**Aging**

Our Community Outcome: Increase or maintain independent living factors for vulnerable adults 60 years of age and older with low incomes.

**Community Trends**

- The percentage of those 65+ who live below poverty level has steadily hovered at around 6%.
- There is a nine year disparity in life expectancy between residents in Ypsilanti Township and those in the cities of Chelsea, Saline, and parts of Ann Arbor.
- There is a 14-year disparity based on race.

**Systems Goal:** Increase or maintain independent living factors for vulnerable, low-income adults 60 years of age and older.
