

UNITED WE TURN JOBS INTO CAREERS.

LIVE UNITED

Every day, people in our communities struggle with economic issues that may seem impossible to solve. Families who can't afford to put food on their tables.

Homeless veterans who can't access help to get off the street. Unemployed youth who lack skills training needed for a good job that offers a living wage.

These are tough problems that threaten the future of individuals and communities. But United Way is fighting to improve financial stability for everyone—everywhere. Across a global network of nearly 1,800 United Ways, we're offering financial coaching for families. We're connecting military veterans and others to housing, mental health services and other community support systems. And we're working with people and educators to offer training for in-demand jobs.

We are more than the fundraisers. We are the problem solvers, the hand raisers. We are the game changers. We surround a community's

most critical problems—and we fight. With our partners—including 60,000+ companies across the globe—we're offering hope and help where it's needed the most. In the last year alone, United Way impacted 61 million people, including:

- 12,000 military veterans who found permanent housing and jobs
- 37,000+ young adults who received employment counseling, training and certification
- 687,982 individuals who received job-skills training for career opportunities

We are strengthening communities from the inside out, but there's still so much more to do. Around the world and in our own backyard, we're fighting to build a better tomorrow today.

United Way of Washtenaw County ensures that individuals and families gain and retain assets.

92%

of individuals in Washtenaw County feel more empowered to manage their finances because of free financial coaching

United Way fights for the health, education and financial stability of every person in every community. We have one life. To live better, we must LIVE UNITED.
