“If you want to go fast, go alone; If you want to go far, go together”. In many ways this proverb captures this year’s campaign theme, United We Thrive. In order to go far, in order to thrive, we need access our greatest resource; one another.

Over the past century, The United Way of Washtenaw County has consistently worked with community members and partners to fulfill the organization’s vision and goals to bridge societal gaps and create sustainable positive impact. This significant, sustainable impact is made possible through partnerships, relationships nurtured by a deep passion for and commitment to our mission: to provide health, education and financial stability to every member of the community.

Let’s Live United and strive for a highly successful 2022/2023 United Way campaign. We need to work together, set high goals, and celebrate our successes.

We live in a thriving community, yet inequities continue to exist right here, right now. Across Washtenaw County, thirty one percent of households struggle to afford the basic necessities of housing, childcare, food, health care and transportation. We need your help, energy, and passion to attack this problem and help create solutions by raising funds at levels significantly above the recent past.

Our local United Way connects people, resources, and organizations together to create a thriving community for everyone. They center diversity, equity, and inclusion in everything that they do. Join us, working together we can make a difference. #UnitedWeThrive
