

Introducing a new service from TrustPlus

Financial advice when you need it

United Way of Washtenaw has partnered with TrustPlus to provide one-on-one support to help you reduce your debt, improve your credit, and reach your financial goals.

TrustPlus is a nonprofit with a mission to improve financial security for all workers. We do not sell financial products or earn commissions, and everything you share is 100% confidential.

Together with your TrustPlus coach, you can develop a personalized action plan to address issues such as:

Building credit so that you can qualify for the best credit cards, loans, or mortgage

Reducing troublesome debt from collections accounts, medical bills, and student loans

Budgeting and building a safety net for emergencies
